Week Three: Cooking!

Kid Craft/Mini Jell-O Fish

Materials Provided: Small cup with lid, gummy fish, small box of Nerds®

Additional Materials Needed: 3 oz blue Jell-O® packet

Place Jell-O packet contents in bowl. Heat 1 cup water to boiling, add to Jell-O mix, stirring thoroughly, then add 1 cup cold water, stir, place in fridge to cool. Spread Nerds on the bottom of your cup and carefully/slowly cover them with Jell-O mix (otherwise they will melt). Place cup in refrigerator for Jell-O to completely set. Once set, make a slit in Jell-O with a knife and push gummy fish into your “water”. Enjoy your fun fishbowl and then you can eat the contents!
