

Week Two: STEM!

Teen & Adult Craft/Kitchen

Materials Provided: None

Additional Materials Needed: Varies - see below

There are many ways to grow various fruits or vegetables that you have in your home already by harvesting the seeds or cutting off a part of the fruit or vegetable. Some examples we have seen are pineapple tops, artichoke leaves, carrot tops, tomato slices, corn on the cob, etc. Find a fruit or vegetable at home and do some research on the Internet to decide what you want to grow from a part of an existing food.

During the final week of the Summer Reading Program, we will have you bring in your project with a written description of your food choice and process.

Prizes will be awarded in various categories!

MENDON PUBLIC LIBRARY
