

### **Week Four: History!**

#### **Teen & Adult Craft/Button Craft Ornament**

Materials Provided: card stock/cardboard piece, buttons, ribbon

Additional Materials Needed: glue, hole punch, & anything you want to add to your ornament!

Before store-bought decorations, people had to create their own holiday decorations.

Using the provided card stock and buttons, create a homemade ornament for the holidays. The card stock can be cut into any shape you want: tree, circle, snowman, etc. Glue on buttons, and also feel free to embellish with materials from home as well. Be creative & have fun! (If you need a jumpstart, the internet is full of inspiration.) Punch a hole near the top of the ornament and use the provided ribbon to make a hanger for your ornament.

Take a picture to share your creativity with the library!
