

Week Six: Music & Dance!

Kid Craft/Egg Maracas

Materials Provided: 1 plastic egg, 2 plastic spoons

Additional Materials Needed: tape (Washi tape, colored duct tape, or white tape can be fun for this project), egg filler (e.g., popcorn kernels, rice, seeds, beans, etc.)

Fill your easter eggs with egg filler (about half full). Place a plastic spoon on each side of the egg. Wrap decorative tape around the spoon and egg. You can cover the whole egg with tape or just enough for it to be secure and shake, shake, shake!
